

12th annual

Northeastern Granular Materials Workshop

Friday, June 6, 2014

Brown University

Barus & Holley 190

8:30 am - 5:00 pm

Invited speakers:

Ruben Juanes (MIT)

Steve Sun (Columbia University)

Eric Brown (Yale University)

Ken Kamrin (MIT)

Topics of invited talks:

Poromechanics of faults

Permeability evolution in granular shear bands

Shear thickening in concentrated suspensions

Continuum modeling of granular flow

Organizing committee:

David Henann (Brown University)

Corey O'Hern (Yale University)

Mark Shattuck (City College of New York)

Registration:

Workshop attendance is free!

Please register at gibbs.engr.cuny.cuny.edu/NEGW/registration.php by May 30, 2014.

Sponsors:

NSF-CBET

APS Topical Group on Statistical and Nonlinear Physics

Brown School of Engineering
